

# ANDREE ANCHI

## 3rd Year CS Undergraduate

@ hairton.anchi.d@uni.p    +51 959168186    [github.com/andreewD](https://github.com/andreewD)

## EDUCATION

B. Tech in Computer Science  
**National University of Engineering, Peru**  
📅 August 2018 – Present

## ABOUT ME

Agility for deploying web application's. I consider myself a very passionate person in what i do. I like doing research and my areas of interest are Blockchain and Security.

## PROJECTS

Ethereum Task Manager  
📅 Sep 2021  
• Task manager based on smart contracts technology using Ethereum blockchain

Precios Ya  
📅 Jul 2021  
• Website developed using Angular, NodeJs and MongoDB to obtain cryptocurrency prices in real time.

Political crisis in Peru: Analysis of sentiments on Twitter  
📅 Jan 2021  
• Sentiment analysis applied to information collected on Twitter in the context of the political crisis in Peru.

Mathematical-ecological model of population growth  
📅 Nov 2020  
• Study of the population dynamics of ecological communities using the Leslie matrix

## SKILLS

C++   Python   Javascript  
Bash scripting   Node   React  
Solidity   Mongo DB   Docker  
Motivator & Leader

## CERTIFICATIONS

- IBM Blockchain Foundation Developer
- Introduction to Data Science

## PRESENTATIONS

Mathematical-ecological model of population growth  
**National University of Engineering**  
📅 Jul 2020

Hill cipher applied to image encryption  
**National University of Engineering**  
📅 Aug 2019

USB Rubber Ducky  
**National University of Engineering**  
📅 Jul 2018
